

GLOBALTELECOM
In touch with the world

Carrier Pre Select (CPS)

Carrier pre-select (CPS) is a mechanism that allows you to select an alternative operator other than BT, to route your voice calls. By implementing CPS all your voice calls will be routed through Global Telecom at our reduced prices.

You keep your BT phone number and still receive your Quarterly bill for your line rental from BT, and the bill for the voice calls will be sent directly from us. We are able to reduce your BT bill by up to 52%. We offer online stats analysis and monthly itemised bills that can be sent to you by email.

Some of the key benefits are:

- **Cost savings**
Local and National calls reduced by up to 52%.
- **International Cost savings**
International calls reduced by up to 75%.
- **Monthly online calls stats**
Allows you to monitor usage and identify any excessive spending.

- **Low set up fees for calls**
No more 4.9p minimum charge per call.

- **No reduction of call quality**
All service are supported 24/7 with industry standard quality levels that you currently benefit from.

CPS guarantees 100% call routing of the appropriate calls and allows existing BT services to remain unaffected. You will benefit from competitive call charges and know that all calls will be automatically routed rather than having some calls still routed via BT and charged at their rates. The CPS 'tariff sheet' details the full rates and prices for International destinations.

Save up to 52%
off your BT bill
