

**GLOBALTELECOM**  
In touch with the world

## Mobile Call Saver

Global Telecom is able to offer your organisation a unique low cost way of calling abroad from your mobile phone. This service is also available from UK landline numbers.

We register your mobile number on the service which allows callers to access any country in the world via our unique 0207 access number.

You will be able to call around the world using your mobile operators bundled inclusive minutes and it's far cheaper than calling international destinations at your mobile operators rate.

You get a bill from us for the international call charge and your mobile operator will charge you for the call to the 0207 number. It's that simple, the service can be set up within 24 hours.
